

HEADWAY HORTICULTURE HAPPENINGS 2021

Due to lockdown (round 3) our much anticipated horticulture course had to be reviewed and moved onto a virtual platform.

All the materials had to be

sourced and ordered on line, from a number of businesses across the UK, which caused its own issues.

Some materials were unable to be processed due to Brexit restrictions, whilst other materials, due to be delivered internally within NI, went via Bolton in England causing additional delays

Despite these hiccups, 2 classes have begun this week over Zoom.

‘Digging’ into their boxes delivered to participants doors everyone is making a start at their weekly experiments, finding out more about gardening, nature and taking some time out for some well-deserved mindfulness too.

Watch this space for updates and pictures as Spring returns and hopefully all our green spaces begin to show ‘new shoots’ of growth.
